■ DEALERSHIP TEAM MANAGEMENT

The manage team page allows you to manage your team members. This form allows account admins and managers at your dealership to create separate accounts for each employee who will be selling the CPR for Cars™ Program at your location. Multiple security levels available to control account access.

- **Account Admin's** may modify dealer contact and billing info, view invoices, create other admin users, manage API keys and integration documentation and all functions below.
- **Sales Manager's** may view reports, create manager and basic users. Managers also have access to all functions below.
- **Sales User's** may search members, download and email member contracts and have access the resources page where they may print and download forms and sales materials

API INTEGRATION

- CPR for Cars offers a full-featured, RESTful API that lets you connect your dealership systems or website directly to our service. By integrating via API, you can:

Automate Workflows: Create, retrieve, and void contracts without manual data entry.

Reduce Errors & Save Time: Eliminate duplication and miscommunication by letting systems talk directly.

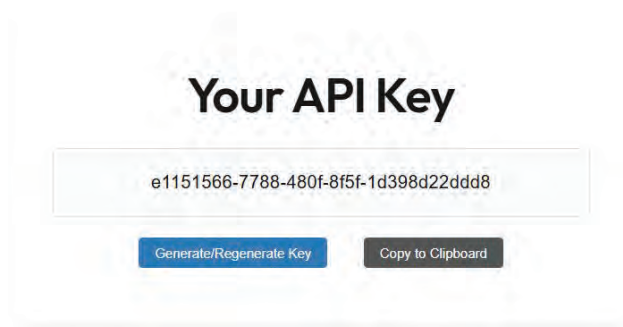

Generate & Send Documents: Instantly produce and email PDF contracts or invoices from your own dashboard.

Access Real-Time Data: Pull up-to-the-minute membership, vehicle, and plan details to keep your records in sync.

Our online documentation walks you through authentication, endpoints, and code examples. Integrate with confidence and unlock CPR for Cars in your own environment. Generate your API key and let your system administrator or software provider access the API documentation to get started.

■ GENERATE API KEY

Click the API Key link to create a key that gives you secure API system access.

■ API DOCUMENTATION

This reference guide describes how to interact with the API to get your DMS/ERP or Website connected
